

Wipe&Clean Cleaning cloths

Our unique micro-dry steam technology meets the innovative **Wipe&Clean cleaning cloths**.

Wipe&Clean cloths are enriched with tiny copper pigments via a patented process. When combined with steam or water, the copper pigments release ions, inactivating bacteria and absorbing viruses. In this way, you extend the high cleaning performance of micro dry steam even more: With **Wipe&Clean**, it's not just the dissolved dirt that's removed, but also up to 99.9% of bacteria and viruses! Compared to conventional wipes, the risk of infection, the spread of germs and the unpleasant smell are significantly reduced, too.

Maximum dirt absorption

Exclusive large format

99.9% germ reduction

Zero smell formation

**Advantages
at a glance:**

Enriched with copper pigments

Maximum efficiency

Maximum hygiene

Active environmental protection

How to use

- To use them most effectively, always use the wipes moist or in combination with the finest micro-dry steam.
- The Wipe&Clean cloths are suitable for all materials and surfaces, including stainless steel, plastic, tiles, textiles, leather, glass or wood.
- They are particularly useful in areas that tend to get a lot of germs, such as kitchen and household area, catering, hotels, doctors' surgeries, fitness studios, transportation, offices, in the beauty and wellness sector, in toys, electronics, vehicle interiors, health and care facilities, etc.
- Avoid using cleaning and disinfecting chemicals. Acidic cleaning agents (lime cleaners, toilet cleaners) destroy the copper pigments and thus the effect of Wipe&Clean.
- Don't use fabric softeners in the washing machine - stick to commercially available detergents.

Live the future - rethink hygiene

We take responsibility for the preservation of nature and the reduction of waste - because the future belongs to our children. Take advantage of the possibilities of modern cleaning and benefit two times over! You save energy, effort and time in the household - and we supply you with the professional product for this purpose.

Your benefit to you is a pollutant-free and pure home – because you can't put a price on your health and quality of life.

Product details:

- Microfibre: PES / PA refined with copper pigments
- XL size: 38,5 x 48,5 cm
- Grammage: 280 g/m²
- Loop structure knitted

The antimicrobial effect of the **Wipe&Clean cloths** has been certified by bodies such as:

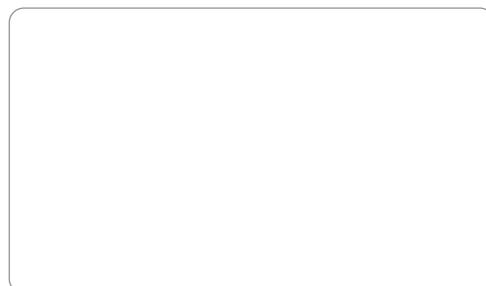

- Medical University of Innsbruck
- Weber & Leucht GmbH Application Lab
- Dr. Brünke MTC
- eurovir Hygiene-Labor GmbH
- oFI Technologie & Innovation GmbH and
- Institut Hohenstein Laboratories GmbH & Co. KG.
